PRECISION PEPTIDE PARTNERS

5 AMINO ACID-1MQ

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Weight Management & Metabolic Health

10 mg | $45.00 CAD

WHAT IS IT?

A small-molecule NNMT inhibitor investigated in preclinical metabolic research; it is not itself a peptide.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- Nicotinamide N-methyltransferase (NNMT)
- Cellular energy metabolism
- Preclinical metabolic models

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A small-molecule NNMT inhibitor investigated in preclinical metabolic research; it is not itself a peptide.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Human safety and effectiveness have not been established.

PRODUCT INFORMATION

- Listed size: 10 mg
- Catalog price: $45.00 CAD
- Category: Weight Management & Metabolic Health

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
