PRECISION PEPTIDE PARTNERS

AHK-CU

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Skin & Hair

10 mg | $50.00 CAD

WHAT IS IT?

A copper-binding tripeptide investigated for hair-follicle and skin-related cellular biology.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- Copper coordination
- Hair-follicle cell models
- Skin and extracellular matrix

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A copper-binding tripeptide investigated for hair-follicle and skin-related cellular biology.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Clinical outcome data are limited.

PRODUCT INFORMATION

- Listed size: 10 mg
- Catalog price: $50.00 CAD
- Category: Skin & Hair

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
