PRECISION PEPTIDE PARTNERS

CJC-1295 / IPAMORELIN

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Muscle Growth & Performance

10 mg | $80.00 CAD

WHAT IS IT?

A combination of a growth-hormone-releasing-hormone analogue and a ghrelin-receptor agonist.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- GHRH receptor signaling
- Ghrelin receptor signaling
- Growth-hormone secretory pathways

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A combination of a growth-hormone-releasing-hormone analogue and a ghrelin-receptor agonist.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

The combination lacks adequate controlled clinical evidence for broad performance claims.

PRODUCT INFORMATION

- Listed size: 10 mg
- Catalog price: $80.00 CAD
- Category: Muscle Growth & Performance

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
