PRECISION PEPTIDE PARTNERS

GHK-CU

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Skin & Hair

100 mg | $100.00 CAD

WHAT IS IT?

A naturally occurring copper-binding tripeptide investigated for skin, extracellular-matrix and tissue signaling.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- Copper-binding GHK complex
- Collagen and extracellular matrix
- Cellular repair signaling

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A naturally occurring copper-binding tripeptide investigated for skin, extracellular-matrix and tissue signaling.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Topical and laboratory evidence should not be extrapolated to untested routes or broad health claims.

PRODUCT INFORMATION

- Listed size: 100 mg
- Catalog price: $100.00 CAD
- Category: Skin & Hair

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
