PRECISION PEPTIDE PARTNERS

IGF-1 LR3

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Muscle Growth & Performance

0.01 mg | $60.00 CAD

WHAT IS IT?

A modified analogue of insulin-like growth factor 1 studied for growth-factor receptor signaling.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- IGF-1 receptor biology
- Cell proliferation signaling
- Growth-factor pathway regulation

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A modified analogue of insulin-like growth factor 1 studied for growth-factor receptor signaling.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Potential metabolic and growth-related risks require caution; no use instructions are provided.

PRODUCT INFORMATION

- Listed size: 0.01 mg
- Catalog price: $60.00 CAD
- Category: Muscle Growth & Performance

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
