PRECISION PEPTIDE PARTNERS

MOTS-C

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Healthy Longevity & Cellular Health

10 mg | $60.00 CAD

WHAT IS IT?

A mitochondria-derived peptide studied in energy homeostasis and metabolic signaling.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- Mitochondrial peptide signaling
- AMPK-associated pathways
- Preclinical metabolic response

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A mitochondria-derived peptide studied in energy homeostasis and metabolic signaling.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Human efficacy and safety evidence is limited.

PRODUCT INFORMATION

- Listed size: 10 mg
- Catalog price: $60.00 CAD
- Category: Healthy Longevity & Cellular Health

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.

UNDERSTAND THE MECHANISM • KNOW THE LIMITATIONS • RESPECT THE RISKS

EDUCATIONAL / RESEARCH INFORMATION ONLY • NOT FOR SELF-ADMINISTRATION
