RETATRUTIDE

SCIENTIFIC PRODUCT RESEARCH SUMMARY

Weight Management & Metabolic Health

20 mg | $150.00 CAD

WHAT IS IT?

An investigational triple-receptor agonist targeting GLP-1, GIP and glucagon pathways.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- GLP-1 receptor signaling
- GIP receptor signaling
- Glucagon receptor signaling

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

An investigational triple-receptor agonist targeting GLP-1, GIP and glucagon pathways.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

Clinical research is evaluating metabolic outcomes and adverse effects; investigational status must not be confused with approval.

PRODUCT INFORMATION

- Listed size: 20 mg
- Catalog price: $150.00 CAD
- Category: Weight Management & Metabolic Health

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
