SCIENTIFIC PRODUCT RESEARCH SUMMARY

Cognitive Health

10 mg | $55.00 CAD

WHAT IS IT?

A synthetic peptide related to an ACTH fragment studied in neurobiology.

Research profile — not a clinical treatment claim.

WHY IS IT STUDIED?

- Neurotrophic signaling hypotheses
- Neuronal response models
- Neurobehavioral research

HOW THE RESEARCH IS INTERPRETED

COMPOUND / MATERIAL — **RESEARCH MODEL** — **EVIDENCE REVIEW**

Mechanism and biological context

A synthetic peptide related to an ACTH fragment studied in neurobiology.

Scientific pathways and experimental findings are not proof of clinical benefit.

EVIDENCE LIMITATIONS

The available evidence does not justify broad cognitive-performance claims.

PRODUCT INFORMATION

- Listed size: 10 mg
- Catalog price: $55.00 CAD
- Category: Cognitive Health

RESEARCH & SAFETY CONSIDERATIONS

Educational and research information only. Not medical advice. No claims of purity, sterility, testing or approval are made without product-specific documentation.
